25 Lannercost Street

Ingham Queensland 4850

Subject: Objection to the Proposed Mount Fox BESS Pty Ltd Development (Planning Application Reference: J001546) DA MCU23\0005, DA OPW23\007

Dear Council Members,

I am writing to you as a concerned resident to formally object to the proposed development of the Battery Energy Storage System (BESS) at Ewan Road, Mount Fox. The application reference is J001546, and the proposal includes the construction of a BESS and associated transmission facilities.

While I fully support sustainable energy initiatives and the benefits they can provide to our community, I have specific concerns about this development that I believe warrant serious consideration:

There are both flora and fauna which are either endangered or vulnerable that are at risk and must be considered and protected.

The irreversible and detrimental damage that will be done to this pristine and ancient environment will be catastrophic to say the least, especially considering the minimal outcome this will produce.

This cannot possibly go ahead.

With thanks

Danielle Christie
