You don't often get email from karenamcleod67@gmail.com. [Learn why this is important](#)

Dear Council,

No to any disturbance, development on any intact natural area, including Mt Fox.

No.

We are in a climate emergency, every natural resource is a PUBLIC asset, an asset critical for the survival of ALL species.

No development.

You do not have the authority, the right or even the community support to destroy a natural system.

All new, renewable or any development must be on disturbed, cleared land.

Council is the custodian for future generations, use your powers to ensure ALL remaining natural systems are protected.

Regards,

Karena McLeod
